## International presence 94 COUNTRIES

## CSR CERTIFIED AT THE HIGHEST LEVEL

Having a positive impact on the environment and our society while promoting our region are the cornerstones of the de Buyer's approach, which is sustainable and committed.

### Some of the measures we've implemented :

- Setting up an apiary outside of our factory, an indicator of good environmental health. This initiative helps bring bees back in the Vosges region.
- Manufacturing durable and high-quality, French-made products (often with a lifetime warranty) that are long-lasting to promote responsible consumption.
- Recycling and reducing waste: once our nonstick fry pans are

done being used, we collect, disassemble, and recycle them.

- Local revitalization : our company supports and provides local jobs and promotes the region's economic development.

### We have also ...

- Created a waste water treatment plant on-site.
- Constructed new buildings with solar panels.
- Aided in reforestation by planting 1,400 trees locally.
- Eliminated plastic waste in our packaging.
- Created an internal Corporate Social Responsibility (CSR) task force.

And we are constantly continuing our efforts to improve !

## BOCUSE D'OR & TEAM FRANCE PARTNERSHIP

De Buyer has partnered with the largest culinary competition in the world, the Bocuse d'Or. The company has also actively been supporting Team France since 2019.

Being a Team France partner at the Bocuse d'Or not only means supporting a participant but also promoting the French gastronomy and taking part in a beautiful shared experience. It's a commitment that's all about excellence and the sharing of knowledge. In 2021, Davy Tissot, chef from Lyon and Meilleur Ouvrier de France, won the competition.

In 2021, Naïs Pirollet won the Bocuse d'Or FRANCE, and we've supported her during her training for the Bocuse d'Or throughout 2022. At age 24, she became the first female ever to represent France in this competition.

## SIRH+ BOCUSE D'OR 2023 FINAL PREMIUM PARTNER

## GAULT & MILLAU PARTNERSHIP

Gault & Millau Tour is promoting 11 regions of France by rewarding the most talented chefs and highlighting their restaurant, cuisine, service and savoir-faire. The Gault & Millau Young Talents Award is a prize in equipment and raw materials awarded to the most talented chefs to help them open their own restaurant.

De Buyer also manufactures the famous yellow plaque certifying that an establishment is part of the Gault & Millau selection.

# STEEL THAT STANDS THE TEST OF TIME

Steel frying pans are what our grandmothers used to use. These timeless pans are ideal for high-temperature cooking and take a simple and natural approach without any additional coating. We protect and nourish them with beeswax - it is then up to you to season your pan so it can truly flourish.

**2-level smoker oven for hot and cold smoking - Stainless steel**

Food is subjected, over a prolonged period, to smoke which has an antiseptic effect and increases shelf life, at the same time enhancing the taste. Smoking gives food a woody taste. More specifically, you can smoke meat (steak, chops, filet mignon, etc.), poultry (chicken, duck, etc.), charcuterie (essentially ham, bacon, large sausages, small sausages, andouilles [spicy sausages]) and fish (salmon, trout, eel, mackerel, etc.). The principle lies in exposing food to smoke at different temperatures, depending on the desired result.

Sawdust is sterilized and dust free. Guaranteed without chemical. Sawdust HB50/1000. Grain size : 0.5 to 1.0mm. Humidity 8 to 12 %. In compliance with the standards DIN ISO 9001.

CHOC EXTREME is made from pressure cast aluminium and is covered with the highest quality non-stick coating which is consolidated by a PTFE projection. It stands up excellently to deformation, knocks, and sudden changes in temperature. This frying pan is ideal for providing regular cooking conditions as its very thick base cuts out sudden, unwelcome reactions when too much heat is applied. The ergonomic cast st/steel handle is firmly riveted.

CHOC EXTREME nonstick pan with removable handle is also available

# THE EXCELLENCE OF COPPER

Copper is a leading material for kitchen use and loved by professionals and keen amateurs as well. It conducts heat quickly and evenly and is perfect for thickening sauces and cooking when particular care is required. The utensil bodies are made of a colaminated material (90% copper; 10% stainless steel). The copper is hand-polished using traditional methods - its gentle, soothing aura making it the perfect companion for your table.

### A spicy story and a challenge taken up with relish

For two centuries, the passion for cookery, taste and Gastronomy, both local and from around the world, has driven de Buyer's manufacturing. Its savoir faire in the design and manufacturing of high-quality kitchen and patisserie utensils responds to the demands of professionals and enthusiasts for all that is good and home-made.

It has thus created its own world dedicated to the mastery of taste, so it is entirely natural that it should wish to complement its collections with mills for salt, pepper and other spices.

However, de Buyer is first and foremost a manufacturer that loves to design, innovate and use its savoir faire and experience to make its products. As a living heritage company, the business has retained its artisanal soul, its rigour and its love for work well done.

De Buyer has always wanted to offer its own collection of mills, bearing its signature.

De Buyer approached Marlux to create this collection. Both companies share the same values, an artisanal soul and a love for work well done. Marlux is a family business, founded in 1875 and is also a living heritage company that has become a major name in the history of French mill manufacturing. In 1972, it revolutionised the world of spices by inventing the nutmeg mill and, as true benchmarks, their mills featured on the finest tables because of the quality of their salt and pepper grinders, manufactured on its own machines.

The great spice adventure began in 2015 for de Buyer and the first mills began to leave the factory in 2016.

The company's mastery of materials enables de Buyer to create mills with new signature mechanisms in steel and ceramic.

Today, the manufacturing process of the mills is part of the de Buyer company's CSR policy: the wooden mills are made of beech from sustainably managed forests and have obtained the Origine France Garantie certification.

Spices are ingredients that are inextricably linked to flavour; masterfully ground, they reveal themselves and enable us all to create our own symphonies of aromas.

Stainless steel long mould to make pâtés and mousses (vegetable, meat or fish), foie gras, ice-creams, Swiss rolls, cream cakes, yule logs, etc.

Tip: the mould becomes waterproof by lining it with cling film before filling.

Our secret : a professional design with thick stainless steel to obtain a mould that keeps its shape and a uniform heat or cold distribution. Smooth surface for an elegant finish. Easy assembly and turning out thanks to the removable end caps and the smooth edges. Multiple uses : cold uses (freezer - deep freezer) and hot uses (oven- bain-marie). Do not use in microwave. Easy care of stainless steel. Dishwasher safe.

The small models can be used alone or in combination with the large standard models to make an insert in your preparation.

The various pastry ring shapes allow a pastrycook to make cakes which are good-looking and original, enabling him or her to stand out from the crowd. What's more, the original shape of the cream cake is itself decorative and therefore cuts back on decorating time. The st. steel ring keeps its shape throughout its use but is not too thick for good heat convection during cooking.

This mould proves ideal for Tatin tarts, since it allows you to form a caramel layer directly in the mould while it's on the heat. Once the caramel is formed in the mould, just add the apple slices, cover with pastry, and place the mould in the oven. Pressure cast aluminium is ideal for providing regular cooking conditions and the thick bottom stands up excellently to deformation.

# DE BUYER INDUSTRIES TERMS AND CONDITIONS OF SALE - 2023 version

«These terms and conditions of sale apply to all sales made by our company and cannot be cancelled or unilaterally amended regardless of the clauses set forth in the buyer's documents, and in particular their terms and conditions of purchase, over which these terms and conditions of sale take precedence and constitute the basis for negotiations in accordance with the provisions of Article L. 441-6 of the French Commercial Code.»

## 1- DOCUMENTS

All texts, information, characteristics and photographic reproductions included in our prices, catalogues and documentation are for information purposes only and are not guaranteed. We cannot under any circumstances be held liable for any inaccuracies. We reserve the right to make modifications thereto without giving prior notice.

## 2- ORDERS

Orders are not final until they have been confirmed in writing by DE BUYER INDUSTRIES (hereinafter "DE BUYER"). A refusal to confirm an order does not have to be justified by DE BUYER and may occur in the event of an order for an unusual amount or quantity or an abnormal delivery time compared to normal practice in the profession or compared to previous orders.

In the event of a stock shortage, DE BUYER will process orders based on their order of arrival and while stocks last. Any amendment to or cancellation of an order for products from the catalogue, as requested by the client, can only be considered if made in writing at least five (5) working days before the dispatch of catalogue products.

DE BUYER reserves the right to make any amendments to its products that it deems useful at any time and to amend the models in its prospectuses or catalogues without giving prior notice.

## 3- PRICE – MODIFICATION OF FINANCIAL TERMS

3.1. The prices applicable to the buyer are specified in euros, excluding taxes but including packaging, except for special packaging charged for separately, net, and not including transport.

The prices are non-binding and can be modified at any time without notice. Invoicing is carried out according to the price in force on the delivery date (initially agreed) once this price has been communicated to the buyer by DE BUYER before the date of the order. Failing this, invoicing is carried out according to the price in force on the day of the order confirmation, provided that the price is still applicable on the day of delivery (the order confirmation will therefore be considered as being under a condition precedent).

## 3.2.

If, during the execution of an order, the economic, political or health situation, or the conditions of manufacture/production or marketing in force at the time of its conclusion, were (are) manifestly changed, in particular due to a rise in the price of raw materials significantly affecting the market for contractual products, and generally, in the event of a significant change in the economic conditions in force at the time of the order, such as to make the performance of the contract abnormally onerous for DE BUYER, the parties will come together to adapt the terms of this order to the new situation in an equitable manner.

In the event of it being impossible to come to an agreement within a period of two (2) months from the implementation of this clause, the order may be cancelled, by one of the parties, fifteen (15) days after a letter is sent by recorded mail declaring the intention to apply this clause.

This article consequently derogates from Article 1195 of the French Civil Code and expressly excludes recourse to legal proceedings for the purpose of adapting the contract in the event of the renegotiation of the order terms failing. The execution of the order in question will be suspended for the duration of the implementation of this clause.

## 4- DISCOUNTS

The client may receive a discount depending on the quantities purchased or delivered at one time or to one location, or based on the frequency of orders or on special agreements.

## 5- ONLINE MARKETING

By distributing online, the buyer undertakes to take proper care with the sale of the products online and to comply with legal requirements, in particular:

- Only sell products to the retail end user and only process normal requests from this category of buyer;
- Permanently have sufficient stock, stored in conditions that make it possible to meet consumer requests for products, and otherwise to remove products from its offering in the absence of stock allowing it to meet demand;
- Deliver products to consumers based on available stock, limited to two (2) units of the same reference per order;
- Inform the client of the usual delivery times, which should not exceed eight (8) working days from the order being placed online, and the existence of a cooling-off period;
- Indicate the payment, delivery and performance methods as well as the validity of the offer and the price.

By distributing online, the buyer undertakes to respect legislation specific to online sales and general applicable regulations. It undertakes to make transparent offers to the consumer, and to provide advice, assistance and an aftersales service.

## 6- REGULATIONS

- Applicable for France:  
Our invoices are payable within thirty (30) days of the invoice issue date, net, without any discount. For cash payments, i.e. those received within a maximum of ten (10) days after the invoice date, the client can deduct a discount of zero point five percent (0.50%). Excluding outstanding invoices authorised by us, which can be modified at any time, our invoices are payable in advance.

- Applicable for Export:  
The first orders are payable in advance. Any other payment method can only be used after providing commercial references and bank details, and remains subject to the approval of our credit insurance company. Our invoices are then payable within thirty (30) days of the invoice issue date, net, without any discount.  
Any tax, charge, duty or other service payable in accordance with French regulations, or those of an import company or transit company, are payable by the client.

- Applicable for France and Export:  
For orders involving a bespoke product, ordered off plan, one third (1/3) of the amount will be payable in advance as a down payment.  
In the event of a failure to meet a deadline or late payment, all amounts due are immediately payable and all pending orders will be suspended.

Moreover, in light of the terms of Article L. 441-10 of the French Commercial Code, the buyer is automatically required to pay penalties calculated on the amounts due by applying a rate corresponding to three (3) times the legal interest rate in force on the due date, increased by 10%. By virtue of Article L. 441-10 paragraph 5 of the French Commercial Code and in accordance with Article D. 441-5 of the same, a lump-sum indemnity for recovery costs of forty (40) euros is automatically payable by the buyer from the first day of delay. If the recovery costs incurred are higher, an additional indemnity may be requested by the company upon presentation of supporting documents.

If, following a particular agreement, the payment date mentioned on the invoice is after the deadline indicated in the terms and conditions of sale, the date mentioned on the invoice will prevail.

All the above-mentioned terms are covered by credit insurance.  
In the event of non-payment, forty-eight (48) hours after formal notice sent by recorded mail remains without response, the sale will be automatically cancelled if we so choose and we may request, in summary proceedings, the return of the products, without prejudice to any other damages. The cancellation will concern not only the order in question, but also all previous unpaid orders, whether they have been delivered or are out for delivery and whether payment for them is due or not. In the case of payment by paper instrument, failure to return the instrument within the legal timeframe will be considered as non-acceptance equivalent to non-payment. Any client credit deterioration may justify a demand for guarantees or an advance payment before orders received are executed. Payments cannot under any circumstances be suspended or subject to any compensation without the prior written consent of DE BUYER.

## 7- CARRIAGE AND PACKAGING, INSURANCE, DELIVERY

Even for postage-paid shipments, merchandise is always sent at the buyer's risk and it is its responsibility to check goods upon arrival, and if applicable to seek remedy, by recorded mail, from the carriers, who alone are liable for damage, theft, losses or delays.

The buyer is required in to check the visible condition of merchandise upon delivery. If any losses or damage are observed, the buyer must send any claims to the carrier in accordance with Articles L. 133-3 et seq. of the French Commercial Code via recorded mail within three (3) days of delivery, with a copy sent to DE BUYER. No claim can be accepted in the event of non-compliance with these formalities by the buyer. Our delivery times are given for information only and only begin after confirmation of the firm and definitive order. DE BUYER undertakes to respect said timeframes. Delays cannot under any circumstances justify full or partial cancellation of the order or give the client a right of retention or entitle it to damages.

DE BUYER will not under any circumstances be liable to pay direct or indirect damages of any kind arising due to a failure to respect delivery deadlines.

The risks of loss or deterioration of products and any risk of liability related to the existence or use of products are transferred to the client as from dispatch. The client therefore undertakes to purchase insurance to cover products against any risk, in particular fire, theft or water damage.

In the absence of specific dispatch instructions from the client, DE BUYER can have products transported by the carrier of its choice without it being possible for it to be held liable.

Moreover, in the event of manufacturing/production being interrupted due to force majeure, as defined hereafter, orders will be suspended and we cannot be held liable.

## 8- CLAIMS AND RETURNS OF MERCHANDISE

We do not accept any automatic returns. Returns of merchandise are only authorised after written acceptance by us and will be sent postage-paid. Merchandise must have been delivered within the last twenty (20) working days to be eligible. Returns will give rise, after analysis by and a decision from our Quality department, to the replacement of any product recognised as defective by DE BUYER or a credit note which will be issued based on the net price invoiced.

For any return of merchandise due to an error by the client regarding the quantity ordered or code (as proven by the reference number mentioned on the order), we will apply a thirty percent (30%) reduction to the returned merchandise purchase value for restocking costs and shipping costs paid by DE BUYER for dispatch of the merchandise, after quantitative and qualitative

verification of the products.

Restrictions: The following items are not eligible for returns regardless of the circumstances:

- Products damaged, used or stored in unfavourable conditions, or used in an abnormal or inappropriate manner;
  - Bespoke products or orders and products not included in the catalogue.
- Any claim must be made via recorded mail within a maximum of eight (8) working days as from the delivery date. In the event of a claim regarding items, our liability is limited to replacing the defective piece or item, without it being necessary, under any circumstances or for any reason whatsoever, to grant an indemnity of any kind. Shipping costs for pieces or items and the return of defective pieces or items are borne by the buyer.

## 9- CONDITIONS FOR USE OF THE BRANDS AND ADVERTISING MATERIALS

The company owns all intellectual and industrial property rights covering products sold under its brand and/or any other brand used by the company. Commercial relations established between the company and the buyer do not give the buyer any right over advertising materials, brands or any other distinctive company sign. Any use of these elements by the buyer requires the company's prior express written consent.

Use by the buyer of these advertising materials, brands and distinctive signs on commercial documents, in particular advertisements, catalogues, prospectuses, professional directories etc. is subject to DE BUYER's prior express written consent.

In the event of wrongdoing by the buyer in the reproduction or use of one of these elements, DE BUYER will be entitled to claim compensation for the harm suffered.

The buyer undertakes not to carry out promotional campaigns (sales, discounts, promotions etc.) on products supplied under the DE BUYER brand without the prior express written consent of the latter. Any sale of counterfeit merchandise and/or merchandise resembling DE BUYER's merchandise (product itself, packaging, brand, logos etc.) which may lead to confusion in the minds of the public is prohibited.

DE BUYER reserves the right to change the technical properties of products supplied without informing the buyer beforehand. Failure to respect the provisions above can result, if DE BUYER chooses, in the suspension of deliveries, reconsideration of the agreement and/or compensation for harm suffered.

## 10- MANUFACTURING WARRANTY

The products are covered by a one (1) year warranty as from the delivery date.

- It only covers products duly acquired and paid for;
- It applies to products used in normal and suitable conditions and for which a manufacturing defect is observed by our Quality department;
- It does not apply to damaged products or products used or stored in unfavourable conditions, or used in an abnormal, inappropriate manner, or bespoke products;
- It does not apply in the event of visible defects.

In order to assert its rights, the buyer must inform DE BUYER in writing of the existence of defects within a period of one (1) year as from the date on which the defect is observed, under penalty of losing the right to take any related actions.

DE BUYER will replace or repair products or pieces under warranty deemed defective by the Quality department. The replacement of defective products or pieces will not give rise to an extension of the warranty specified above.

The buyer alone is liable for patents and counterfeits with respect to special items made based on models or designs provided by the buyer.

In a bid to improve quality, we reserve the right to make any changes to our items that we deem necessary.

## 11- PENALTY CLAUSE

The buyer undertakes to pay, under the penalty clause, in accordance with Article 1231-5 of the French Civil Code, a lump-sum indemnity of fifteen percent (15%) excluding taxes of the agreement, in the event that it does not perform one of its obligations. The penalty is indivisible and payable to DE BUYER, even if the latter requests the cancellation of the agreement. This clause does not prevent DE BUYER from taking legal action to obtain compensation for all harm suffered due to non-performance if said harm exceeds the amount of the penalty clause.

## 12- RETENTION OF OWNERSHIP

In the event of non-payment by the client of all or part of the price of the order, DE BUYER retains, until payment is made in full, property rights over the products sold, allowing it to take back possession of said products. Any down payment made by the client will remain the property of DE BUYER as a lump-sum indemnity, without prejudice to any other action it may be entitled to bring against the client in this respect. Consequently, the transfer of product ownership to the buyer will only take place upon full payment of the price by the latter, regardless of the delivery date of said products.

## 13- NON-PERFORMANCE EXCEPTION - FORCE MAJEURE

13.1. DE BUYER is automatically released from its obligations if the terms of payment have not been observed by the buyer.  
13.2. The parties cannot be held liable if the non-execution or the delay in the execution of any of their obligations, as described herein, with the exception of the obligation to pay a sum of money, results from a case of force majeure within the meaning of Article 1218 of the French Civil Code.

By force majeure, the parties understand, in addition to the cases usually recognised by French law and case law, the following events: labour disputes, total or partial strikes at the company or its suppliers, service providers, carriers, postal services or public services, suspension or cessation of carrier activity, unavailability of energy, difficulty or impossibility of supplying raw materials or packaging/manufacturing/production/delivery of orders, in particular in connection with the increase in the cost of raw materials/packaging or the increase in delivery times or shortages of raw materials/packaging, imperative injunction from public authorities (import ban, embargo, containment, traffic restrictions, health measures...), operating accidents, machinery breakdown, explosion, war, armed conflict, attack, earthquake, requisition, fire, flood, machinery accidents, failure or insolvency of a supplier or subcontractor, pandemic or epidemic known or unknown on the day of the conclusion of the contract, illness of employees, exceptional health measures impacting manufacturing/production.

The party experiencing the event must immediately inform the other party that it is impossible to perform its obligation and justify this to the other party. The suspension of the obligations can in no case be a cause of liability for non-execution of the obligation in question, nor induce the payment of damages or late payment penalties.

The performance of the obligation is suspended for the duration of the force majeure event if it is temporary and does not exceed a period of 90 calendar days. Consequently, as soon as the cause of the suspension of their reciprocal obligations disappears, the parties will make every effort to resume the normal performance of their contractual obligations as quickly as possible. To this end, the party obstructed will warn the other of the resumption of its obligation by recorded mail or any extrajudicial document.

If the impediment is definitive or exceeds a period of 90 calendar days, the order(s) will be purely and simply cancelled, eight (8) days after receipt of a letter notified sent by recorded mail by the first party to act. However, this letter must mention the intention to apply this clause.

## 14- PERSONAL DATA PROCESSING

DE BUYER, the data controller, processes the data of employees and/or client partners in the context of commercial relations with clients whose purpose is the negotiation, completion, management, tracking, preparation and dispatch of orders, plus invoicing, accounting and recovery, as well as the sending of commercial and/or advertising information.

Pursuant to the conditions set out in the French Data Protection Act and the European General Data Protection Regulation (or GDPR), data subjects have the right to access their personal data, request rectification, erasure and minimisation and, as may be relevant, exercise the right to portability.

Data subjects are also entitled to provide general and specific instructions specifying the way in which they expect the rights mentioned above to be exercised after their death.

Pursuant to the conditions provided for by law and the GDPR, if the legal basis of processing is in the legitimate interest of the company, unless the company demonstrates the existence of compelling and legitimate reasons for this processing which prevail over the interests, rights and freedoms of the data subject, subjects can also, for reasons related to their specific situation (legitimate grounds) object to the processing of their personal data.

To exercise these rights or for any other question regarding the processing of personal data, data subjects can contact: info@debuyer.com

Data subjects are entitled to complain to the French Data Protection Authority, the Commission Nationale de l'Informatique et des Libertés (CNIL).

For more information, please see the PERSONAL DATA PROCESSING POLICY, which is available upon request.

## 15- HOUSEHOLD PACKAGING RECYCLING INFORMATION

Pursuant to article L.541-10-13 of the French Environmental Code, the unique identifier FR212339\_01VSBE attesting to inclusion in the register of producers in the packaging sector has been assigned by SYDEREP (ADEME) to DE BUYER. This identifier certifies that it has met its obligation to join the register of packaging producers and makes its market declarations via CITEO.

## 16- DISPUTE SETTLEMENT AND JURISDICTION

THE EPINAL COMMERCIAL COURT (88 France) ALONE HAS JURISDICTION, including in the case of a third-party claim or multiple defendants. The only governing law is French law. The French version of these terms and conditions of sale prevails over the English version.
